The Uninhabitable Earth David Wallace-Wells,2019-02-19 #1 NEW YORK TIMES BESTSELLER • “The Uninhabitable Earth hits you like a comet, with an overflow of insanely lyrical prose about our pending Armageddon.”—Andrew Solomon, author of *The Noonday Demon* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY *The New Yorker* • *The New York Times* Book Review • *Time* • NPR • *The Economist* • *The Paris Review* • *Toronto Star* • *GQ* • *The Times Literary Supplement* • *The New York Public Library* • *Kirkus Reviews* It is worse, much worse, than you think. If your anxiety about global warming is dominated by fears of sea-level rise, you are barely scratching the surface of what terrors are possible—food shortages, refugee emergencies, climate wars and economic devastation. An “epoch-defining book” (*The Guardian*) and “this generation’s *Silent Spring*” (*The Washington Post*), *The Uninhabitable Earth* is both a travelogue of the near future and a meditation on how that future will look to those living through it—the ways that warming promises to transform global politics, the meaning of technology and nature in the modern world, the sustainability of capitalism and the trajectory of human progress. *The Uninhabitable Earth* is also an impassioned call to action. For just as the world was brought to the brink of catastrophe within the span of a lifetime, the responsibility to avoid it now belongs to a single generation—today’s. LONGLISTED FOR THE PEN/E.O. WILSON LITERARY SCIENCE WRITING AWARD “The Uninhabitable Earth is the most terrifying book I have ever read. Its subject is climate change, and its method is scientific, but its mode is Old Testament. The book is a meticulously documented, white-knuckled tour through the cascading catastrophes that will soon engulf our

warming planet.”—Farhad Manjoo, *The New York Times* “Riveting. . . . Some readers will find Mr. Wallace-Wells’s outline of possible futures alarmist. He is indeed alarmed. You should be, too.”—*The Economist* “Potent and evocative. . . . Wallace-Wells has resolved to offer something other than the standard narrative of climate change. . . . He avoids the ‘eerily banal language of climatology’ in favor of lush, rolling prose.”—Jennifer Szalai, *The New York Times* “The book has potential to be this generation’s *Silent Spring*.”—*The Washington Post* “The *Uninhabitable Earth*, which has become a best seller, taps into the underlying emotion of the day: fear. . . . I encourage people to read this book.”—Alan Weisman, *The New York Review of Books*

The Art of Being Human Michael Wesch, 2018-08-07 Anthropology is the study of all humans in all times in all places. But it is so much more than that. Anthropology requires strength, valor, and courage, Nancy Scheper-Hughes noted. Pierre Bourdieu called anthropology a combat sport, an extreme sport as well as a tough and rigorous discipline. . . . It teaches students not to be afraid of getting one's hands dirty, to get down in the dirt, and to commit yourself, body and mind. Susan Sontag called anthropology a heroic profession. What is the payoff for this heroic journey? You will find ideas that can carry you across rivers of doubt and over mountains of fear to find the the light and life of places forgotten. Real anthropology cannot be contained in a book. You have to go out and feel the world's jagged edges, wipe its dust from your brow, and at times, leave your blood in its soil. In this unique book, Dr. Michael Wesch shares many of his own adventures of being an anthropologist and what the science of human beings can tell us about the art of being human. This special first draft edition is a loose framework for more and more complete future chapters and writings. It serves as a companion to anth101.com, a free and open resource for instructors of cultural anthropology. This 2018 text is a revision of the first draft edition from 2017 and includes 7 new chapters.

Practical Ethics Peter Singer, 2011-02-21 For thirty years, Peter Singer's *Practical Ethics* has been the classic introduction to applied ethics. For this third edition, the author has revised and updated all the chapters and added a new chapter addressing climate change, one of the most important ethical challenges of our generation. Some of the questions discussed in this book concern our daily lives. Is it ethical to buy luxuries when others do not have enough to eat? Should we buy meat from intensively reared animals? Am I doing something wrong if my carbon footprint is above the global average? Other questions confront us as concerned citizens: equality and discrimination on the grounds of race or sex; abortion, the use of embryos for research and euthanasia; political violence and terrorism; and the preservation of our planet's environment. This book's lucid style and provocative arguments make it an ideal text for university courses and for anyone willing to think about how she or he ought to live.

The Hidden Gulag David R. Hawk,2012-04-10 The second edition of Hidden Gulag utilizes the testimony of sixty former North Koreans who were severely and arbitrarily deprived of their liberty in a vast network of penal and forced labor institutions in the Democratic People's Republic of Korea (DPRK or North Korea) for reasons not permitted by international law. By the time of the research for the second edition in 2010 and 2011, there were some 23,000 former North Koreans who recently arrived in South Korea. Included in this number are hundreds of persons formerly detained in the variety of North Korea's slave labor camps, penitentiaries, and detention facilities. Included in this number are several former prisoners who were arbitrarily imprisoned for twenty to thirty years before their escape or release from the labor camps, and their subsequent flight through China to South Korea. This newly available testimony dramatically increases our knowledge of the operation of North Korea's political prison and labor camp system. This second edition of Hidden Gulag also utilizes a recent international legal framework for the analysis of North Korea's human rights violations: the norms and standards established in the Rome Statute of the International Criminal Court for defining and determining crimes against humanity, which became operative in July 2002. In addition to the testimony and accounts from the former political prisoners in this report, this second edition of Hidden Gulag also includes satellite photographs of the prison camps.

Confessions of an Economic Hit Man John Perkins,2004-11-09 Perkins, a former chief economist at a Boston strategic-consulting firm, confesses he was an economic hit man for 10 years, helping U.S. intelligence agencies and multinationals cajole and blackmail foreign leaders into serving U.S. foreign policy and awarding lucrative contracts to American business.

Freedom in the World 2013 Freedom House,2013-10-10 Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 194 countries and 14 territories are used by policymakers, the media, international corporations, civic activists, and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. The Freedom in the World political rights and civil

liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.

Basic Economics Thomas Sowell,2014-12-02 The bestselling citizen's guide to economics Basic Economics is a citizen's guide to economics, written for those who want to understand how the economy works but have no interest in jargon or equations. Bestselling economist Thomas Sowell explains the general principles underlying different economic systems: capitalist, socialist, feudal, and so on. With clear explanations of the entire field, from rent control and the rise and fall of businesses to the international balance of payments, this is the first book for anyone who wishes to understand how the economy functions. This fifth edition includes a new chapter explaining the reasons for large differences of wealth and income between nations. ASEAN Enlargement Mya Than,Carolyn L. Gates,2001 During the past decade, ASEAN has shifted its focus from political and military security to economic co-operation and development. Although this change may ease the integration of

the four mainland Southeast Asian nations -- Vietnam, Laos, Myanmar, and Cambodia into ASEAN, there remain significant challenges to forge a workable and united ten-member ASEAN. This book examines many of the economic, political, and institutional issues confronting the enlarged regional grouping. The volume is organized into three sections based on the perspectives of the region, subregion, and the newer members. It not only addresses ASEAN's enlargement but also contributes to the debate on ASEAN's shifting role in the twenty-first century.

Heirs to World Culture M.H.T. Sutedja-Liem,2012-01-01 This volume brings together new scholarship by Indonesian and non-Indonesian scholars on Indonesia's cultural history from 1950-1965. During the new nation's first decade and a half, Indonesia's links with the world and its sense of nationhood were vigorously negotiated on the cultural front. Indonesia used cultural networks of the time, including those of the Cold War, to announce itself on the world stage. International links, post-colonial aspirations and nationalistic fervour interacted to produce a thriving cultural and intellectual life at home. Essays discuss the exchange of artists, intellectuals, writing and ideas between Indonesia and various countries; the development of cultural networks; and ways these networks interacted with and influenced cultural expression and discourse in Indonesia. With contributions by Keith Foulcher, Liesbeth Dolk, Hairus Salim HS, Tony Day, Budiawan, Maya H.T. Liem, Jennifer Lindsay, Els Bogaerts, Melani Budianta, Choirotun Chisaan, I Nyoman Darma Putra, Barbara Hatley, Marije Plomp, Irawati Durban Ardjo, Rhoma Dwi Aria Yuliantri and Michael Bodden.
